Course Description

Although it does take plenty of creativity to design an event that is memorable and meaningful, it also takes careful attention to detail, adaptability, effective delegating, and a lot of work. This self-paced course will walk you through the process of event management, from the beginning stages of planning, to the final touches (like decorations, food, and music). While this course is specifically for corporate event planning, the elements here can also be applied to more personal event planning. Essentially, we'll be creating an effective and well planned design that is ready for implementation and can be used over and over again.
